

1. Product and company identification

Commercial product name: PSU 1000

Company (manufacturer): Quadrant EPP Belgium NV
 I.P. Noord - R. Tavernierlaan 2
 B - 8700 Tielt
 Tel.: +32-51-42-35-11
 Fax: +32-51-42-33-00

2. Composition and information on ingredients

This product is a **chemical substance**.

Chemical characterisation (eventually with synonyms): Polysulphone

Chemical structure: PSU

CAS Nr. ('Chemical Abstract Service Registry Number'): 25154-01-2

3. Hazards identification

Most important hazards: No critical hazards for man and environment in case of normal storing, handling and usage.

Specific hazards: Not applicable

4. First-aid measures

Inhalation: In case the plastic burns and combustion gases are inhaled, immediately leave the room and get medical help.

Skin contact: In case molten material comes in contact with the skin, the skin needs to be rinsed thoroughly with cold water. Do not try to remove the molten material. Get medical assistance for the removal of the tacky material and care of the burn.

5. Fire-fighting measures

Suitable extinguishing media: water, foam, dry chemical, CO₂.

Extinguishing media which must not be used for safety reasons: None.

Special exposure hazards arising from the substance or preparation itself, combustion products or resulting gases: See section 10.

Special protective equipment for fire-fighters:
 Firemen should wear self-contained breathing apparatus and protective clothing to prevent contact with skin and/or eyes. If exposed to combustion fumes in a high concentration, bring the victim into fresh air. If molten material contacts skin, cool rapidly with cold water and obtain medical attention for removal of adhering material and treatment of the burn.

6. Accidental release measures

- Personal precautions:** Not applicable
- Environmental precautions:** See section 12 & 13
- Methods for cleaning up:** See section 13

7. Handling and storage

- Handling:**
- Technical measures:** Not applicable
 - Precautions:** Not applicable
 - Safe handling advice:** During machining of the stock shapes, evacuate swarf to prevent slipping or tripping hazard
- Storage:**
- Technical measures:** Not applicable
 - Safe storage conditions:** Inert under normal storage conditions
 - Incompatible products:** Not applicable
 - Safe packaging materials:** Not applicable

8. Exposure controls / personal protection

- Engineering measures to minimize worker exposure:** None.
- Personal protection:**
- Respiratory protection:** None (except when the product burns - cfr. section 4 & 10).
 - Hand protection:** Gloves in case of frequent contact with warm material.
 - Eye protection:** Safety goggles during machining.
- Industrial hygiene:** Follow good standard industrial practice. No special precautions.

9. Physical and chemical properties

		<u>ACCORDING TO</u>
Appearance:	Form: Stock shapes (plate and rod) Colour: Natural (yellow, translucent)	
Odour:	No special odour	
Change in physical state:	Boiling point/boiling range: Not applicable Glass transition temperature: 190°C	
Flash point:	Not applicable	
Vapour pressure:	Not applicable	
Self ignition temperature:	550°C	ASTM D 1929
pH:	Not applicable	
Density (at 23°C):	1.24 g/cm ³	ISO 1183
Solubility in water:	Negligible	
Thermal decomposition:	> 400°C	

10. Stability and reactivity

- Stability:** In normal circumstances, the plastic and its chips are stable.
- Conditions to avoid:** Temperatures above the glass transition temperature (see section 9).
- Hazardous decomposition products:** The main products formed in case of overheating or combustion are, apart from harmless H₂O and CO₂, mainly CO (depending on the amount of available environmental oxygen), and traces of SO₂ and SO₃.

11. Toxicological information

- Acute toxicity:** This material is not considered as being harmful to human health.
- Local effects:** Not applicable

12. Ecological information

This material does not harm the environment but is not biologically degradable.

13. Disposal considerations

- Residual waste:** When recycling is impossible, incineration or landfill. Disposal methods must conform to local or other government regulations. This product does not contain cadmium pigments or cadmium stabilizers.
- Contaminated packaging:** Not applicable

14. Transport information

- International regulations:** Not applicable

15. Regulatory information

Classification and labelling according to the relevant EU-directives is not required.

16. Other information

Read the product information brochures before using Quadrant EPP materials.

All information supplied by or on behalf of Quadrant Engineering Plastic Products in relation to its products, whether in the nature of data, recommendations or otherwise, is supported by research and believed reliable, but Quadrant Engineering Plastic Products assumes no liability whatsoever in respect of application, processing or use made of the aforementioned information or products, or any consequence thereof. The buyer undertakes all liability in respect of the application, processing or use of the aforementioned information or product, whose quality and other properties he shall verify, or any consequence thereof. No liability whatsoever shall attach to Quadrant Engineering Plastic Products for any infringement of the rights owned or controlled by a third party in intellectual, industrial or other property by reason of the application, processing or use of the aforementioned information or products by the buyer.
